

Marc Harrison Named To 100 Most Influential People in Healthcare 2018

Harrison took the top job at Intermountain in October 2016 and has since made several moves to reposition the Salt Lake City-based health system. In January 2018, Intermountain joined Ascension, SSM Health, Trinity Health and the Veterans Affairs Department in announcing the formation of their own drug company. The goal: bring down the cost of drugs. Harrison has also pushed Intermountain farther down the road of using telehealth.
